COUNTERINTELLIGENCE PROGRAM
BUDED: 1/24/75

FBIHQ is in receipt of a request under the Freedom of Information Act (FOIA) for documents relating to captioned discontinued program. In accordance with policy established earlier this year, HQ has reviewed all sections of its files relating to this program and individually classified all serials determined to be classifiable, it being noted the Department has previously been advised we would take this action when documents become subject to a request for public disclosure.

Enclosed for Albany, Baltimore, Boston, Buffalo, Chicago, Cincinnati, Cleveland, Denver, Detroit, El Paso, Houston, Indianapolis, Knoxville, Little Rock, Los Angeles, New Haven, New Orleans, New York, Philadelphia, St. Louis, San Antonio, San Francisco, Seattle, Springfield and Washington Field Offices is a work paper setting forth identities of copies of documents which have been currently classified which must also be classified in respective field office files. Each recipient of the work paper is instructed to review it to insure all copies of the documents listed as classified at HQ are classified in the same manner in the respective field office program file. In each instance where a document has been

classified in the HQ file, it will be necessary that the same classification, number of classifying officer, exemption category and date classified be noted on the field office original or copy of the communication. In every instance, the date of declassification will be indicated as "Indefinite."

In instances where the information set forth in the enclosed work paper is not clear, or set forth in a manner which does not permit location of the field office document to be classified, HQ should be advised and further information will be forwarded. All correspondence concerning this matter should, if possible, contain the number of the work paper page(s) (located at center top) in question.

In connection with this classification project, you should refer to the Manual of Rules and Regulations, Part II, Section 4, pages 53-57b, for instructions relating to classification procedures. Any questions regarding classification matters should be directed to FBIHQ, attention: Classification Officer.

In addition to classifying documents in field office files which have already been classified at HQ, it will be incumbent upon each recipient having a New Left-Cointelpro file to review it to insure all other documents which are classifiable are appropriately classified. This will include both intraoffice documents as well as documents furnished to other offices. In instances where another office has been furnished copies of a document, it is the responsibility of the originating office to furnish all recipients (excluding FBIHQ) sufficient information so they may classify their copies of the document in the same manner as the originator. Recipients not receiving work papers should review indices to insure any classifiable New Left-Cointelpro material in their files is classified.

Re: New Left
Counterintelligence Program
100-449698

In classifying a document on a retroactive basis, bear in mind it is necessary to include the date the document was classified at FBIHQ, and the date the classification is actually affixed if classified in the field.

You will note the enclosed work papers indicate other FBIHQ files which contain copies of documents which appear in this program file, which also must be classified. FBIHQ is undertaking this classification. It will be incumbent upon each recipient to insure all copies of documents classified in its program file are also appropriately classified if they appear in any of its other office files.

This project must be handled on an expeditious basis and be completed by 1/24/75. Insure sufficient personnel are assigned to meet this deadline. On or before 1/24/75 FBIHQ must be advised by each recipient of the completion of the project. Any problems relating to this project should be expeditiously furnished FBIHQ together with appropriate recommendations.
